

Hall Guitar Slides

Available in Six Sizes for a Sure Fit

Actual Size when printed at 100%

Instructions:

When printing this guide, print on standard 20# bond paper. Make sure that the zoom setting is set to 100% and that shrink or expand to fit page is not selected. After printing, you can test that it was printed actual size by placing a ruler against the test rulers below.

To use the gauge, cut out on dotted lines and wrap around finger. Read the size after you have adjusted to the best fit. For the final test, align the gauge lines at the size you have chosen and lock with a piece of tape. If the gauge is too tight, choose the next size larger.

Check against ruler to test printout accuracy.
